## LED Lighting Range

LED lighting technology has evolved to the point where its uses are becoming largely popular across many fields. At Ashe Lights, we are proudly endorse this technology, as its efficiency, along with its remarkable low energy consumption makes it a superior lighting option for commercial, residential and design purposes.

Our LED products are unique in the lighting market, as unlike conventional LED lights, our LED products offer an extensive life span of 50 000 hours, in comparison to the 15 000 hour lifespan of CFL globes.

## Fireproof Downlight

At Ashe Lights, we hold safety and fundamental in our field. As a result, we have released a fireproof down light. This product is an advancement in lighting safety. In short, this product circumvents high-temperature exposure in the ceiling, which thus hinders the possibility of a ceiling fire, through inbuilt fire protection.

Furthermore, the fireproof down light is A:NZ S 3000:2007 certified.

At Ashe Lights we sell this product as a complete kit. The light fitting can come in either a white or silver chrome fitting. This is complemented with a MR 16, 60° power source, and a transformer.

## Energy Saving Lights

At Ashe Lights, we are strong supporters of advanced energy lighting solutions.

At Ashe Lights, we are proud to say that we have an extensive range of energy efficient lighting. In particular, we offer the following energy saving lamps:

- 2 U and 3U lamps
- Small 2 U and 3U
- Spiral energy lamps
- Small spiral energy lamps
